

Conefast (Screw On) Cone

Description:

OCM Plastic Conefast Cones are internally threaded to screw onto the appropriate size Conefast Coil Tie to provide positive form spreader action. Made of high strength and durable plastic.

Features:

- When used with Conefast Coil Ties they will provide a setback of metal to reduce corrosion staining on finished wall
- Can be provided as plain or mechanically galvanized
- When used with Conefast Coil Ties they can be used as combination tie and form spreader

Additional Notes: Additional lengths available upon request. Water seal available upon request. SWL provides a safety factor of approximately 2 to 1.
