

Euro Push Fit Cone

Description:

The Polymer Composite Euro Push Fit Cone is used on each end of a schedule 40 pvc pipe to enable Euro Rod to pass through the formwork during setup and be removed during the form stripping process for later reuse.

Features:

- Available in 15mm (5/8") and 20mm (7/8").
- Provides a snug fit to prevent slippage during use.
- Creates a proper setback in the wall for easy patching.
- Uses 3/4" schedule 40 pvc pipe for 5/8" cones and uses 1" schedule 40 pvc pipe for 7/8" cones.

Additional Notes: Additional lengths available upon request. Water seal available upon request. SWL provides a safety factor of approximately 2 to 1.
