

Slab Bolster Grey

Description:

The OCM Slab Bolster Grey is a heavy duty polymer composite slab bolster that can be used to support rebar in all types of slab or wall applications.

Features:

- Interlocking end tabs provide extra strong connection and enables continuous runs of slab bolster.
- Made from heavy duty yet flexible polymer composite material which will withstand heavy loads, but still flexible enough to bend 180° for side wall spacers and resistant to breaking and snapping.
- Wide footprint provides stability under load.
- Flat top allows the user to slide rebar freely into position during placement.

Additional Notes: Meets CRSI requirements for a plastic bar support
