

AB5010HDG

OCM Inc Plain or Hot Dipped galvanized anchor bolts are engineered for professional use in commercial, industry and residential applications. Galvanized anchor bolts provide long term protection ensuring durability and long service life. These anchor bolts are manufactured for use in moist environments where more rust resistance is required. Galvanized material coats steel with a thick material that provides high resistance against corrosion and rust. Typical applications include base plate anchorage and sill plate anchorage to freshly poured concrete.

Part Number	AB5010HDG
D Size (in)	1/2"
L Length (in)	10"
Weight Per Piece (lbs)	0.54
Plating	Hot Dip Galv.
