

IC44-5F

OCM INC's Inside corners have dadoes and slots that are placed every 12" O.C. for tie and connection hardware. Standard 4x4 or 6x6 Inside Corners are used to form a 90° angle, and manufactured with reinforcing straps to maintain a 90° angle. Inside Hinged Corners are typically used opposite of outside hinged corners and are used to form inside corners down to a 45° angle.
